## BIOGRAPHY

Born and raised in Bordeaux, France, NAY is a DJ and producer whose sound refuses to fit neatly into a single box. After spending years carving his path through hybrid techno and hard techno, he made the shift toward rawstyle and hardstyle, bringing with him a darker, more textured approach shaped by a techno mindset. Today, his rawstyle carries a signature edge: heavy, cinematic kicks layered over a raw energy that never loses its groove. Independent and uncompromising, on his own terms.
